

Little Masterpiece Art Class

Great Artists in History

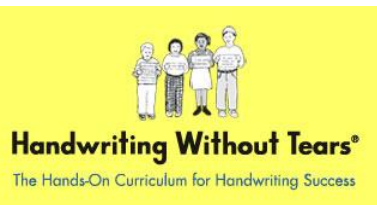

Our art classes teach each age the basic school and life readiness skills through the means of art. Making art and reading about famous artists, children build creativity at every level. For our younger children this includes, strengthening fine motor skills, socializing with other children, and learning shapes and colors, while for our older classes we will be exploring different styles and mediums to create art including: tempera paints, pastels, chalk, clay and watercolors. Each week is a different famous artist accompanied by a musical selection from the period of time in which the artist lived.
